

## Phase 6: User Interface Development

### Lightning App Builder

- Create the Membership Manager app

### Record Pages

- Member page -> details + list of Subscriptions
- Subscription page -> details + list of Invoices

### Tabs

- Members & Subscriptions tabs

## Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications or Salesforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app.

Custom Object Tabs			<a href="#">New</a>	<a href="#">What Is This?</a>
Action	Label	Tab Style		
<a href="#">Edit</a>   <a href="#">Del</a>	<a href="#">Invoices</a>	Ticket		
<a href="#">Edit</a>   <a href="#">Del</a>	<a href="#">Members</a>	Cell phone		
<a href="#">Edit</a>   <a href="#">Del</a>	<a href="#">Subscriptions</a>	Bank		

## Home Page Layouts

- Membership Home -> Dashboard with Recent Members & Subscriptions
